SUMMARY

Full-Stack Developer with hands-on experience building scalable web applications using React.js, Next.js, Node.js, and NestJS. Contributed to production-grade systems involving authentication, realtime communication, campaign workflows, and administrative operations powered by PostgreSQL, MongoDB, Redis, and Socket.IO. Skilled in REST API development, automated testing, deployment automation, and performance-focused engineering using Docker, CI/CD pipelines, GitHub Actions, and Nginx.

KEY SKILLS

- Full-Stack Engineering
- Frontend Development
- Backend Services
- REST API Development
- Realtime Communication
- Authentication & Authorization
- Database Design
- API Integration
- Deployment Automation
- Agile Collaboration
- Performance Optimization
- Testing & Debugging
- Scalable Architecture
- Responsive UI Development
- Problem Solving

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python

Frontend: React.js, Next.js, Redux, Tailwind CSS, Bootstrap, Material UI, HTML5, CSS3

Backend: Node.js, Express.js, NestJS, Socket.IO

Databases: PostgreSQL, MongoDB, MySQL, Redis, Firestore

Tools & Platforms: Git, GitHub, Docker, Postman, Linux, Firebase, VS Code, IntelliJ

Testing & Documentation: Jest, Swagger, Axios

Deployment: GitHub Actions, CI/CD Pipelines, Nginx, AWS S3, Vercel

EXPERIENCE

MERN Stack Developer Intern

Feb 2026 – Present

CollabKaroo

Remote

- Engineered scalable backend services across 7+ core modules using NestJS, PostgreSQL, Redis, and Sequelize ORM, enabling faster feature delivery and improving long-term maintainability for production workflows.
- Implemented JWT authentication, OTP verification, Redis-backed session management, and RBAC authorization guards, strengthening platform security and enabling secure access control for multiple user roles.
- Built realtime communication systems with Socket.IO, room-based messaging, and token validation, delivering low-latency interactions and improving engagement across community-driven features.
- Refined campaign, gamification, and leaderboard APIs through efficient query handling and structured response mapping, reducing backend processing overhead and improving frontend integration stability.
- Streamlined deployment and reliability workflows by integrating Jest testing, Swagger documentation, Docker, GitHub Actions, CI/CD pipelines, and Nginx, improving release consistency and reducing manual operational effort.

MERN Stack Developer Intern

Jul 2025 – Sep 2025

SequelString AI Pvt Ltd

New Delhi, India

- Enhanced 2+ core MERN application features serving 1K+ users, strengthening platform reliability and reducing recurring runtime issues in production environments.
- Refined REST endpoints and React components, lowering average response latency by nearly 30% and enhancing application responsiveness.
- Collaborated within a 4-member Agile team to support sprint deliveries, production rollouts, and feature validation cycles while meeting release timelines.

React.js Developer Intern

QuadB Technologies

Apr 2025 – Jun 2025

Remote

- Translated 5+ Figma designs into responsive React.js interfaces with cross-browser compatibility and enhanced mobile responsiveness across multiple screen sizes.
- Integrated 8+ REST API endpoints with secure authentication workflows and protected routing for seamless client-side interactions.
- Boosted UI usability through reusable frontend components, motion-based interactions, and intuitive user experiences.

Web Developer Intern

7 Star MedTech Pvt Ltd

Jan 2025 – Apr 2025

Noida, India

- Built and launched 6+ production-ready websites that increased client engagement and strengthened online visibility for business operations.
- Structured MySQL database schemas and backend integrations, boosting platform performance and enhancing user interaction workflows by 25%.
- Collaborated with design and business teams to deliver SEO-friendly, responsive digital solutions aligned with client requirements.

EARLY EXPERIENCE

Graduate Apprentice Trainee

Hindustan Aeronautics Limited (HAL)

Sep 2019 – Mar 2021

Nashik, India

- Supported operational and technical workflows within a structured aerospace engineering environment, ensuring process accuracy and cross-functional coordination across manufacturing activities.
- Strengthened analytical thinking, technical communication, teamwork, and problem-solving skills while collaborating within high-discipline engineering operations.

PROJECTS

Flixxit - Full Stack OTT Platform | React.js, Redux, Tailwind CSS, Node.js, Express.js, MongoDB, JWT

- Developed a Netflix-inspired streaming platform featuring movie discovery, authentication workflows, and protected user access management.
- Built reusable frontend modules with Redux-powered state management and streamlined rendering workflows for faster client-side performance.
- Created secure backend services with JWT authentication and MongoDB-driven data handling for scalable content delivery.
- Integrated responsive Tailwind-based layouts and REST APIs to provide a consistent cross-device viewing experience.
- Live Demo: [Live App](#) | [GitHub: Repository](#)

EDUCATION

PG Diploma in Full Stack Development (MERN)

upGrad

Oct 2022 – Aug 2023

Remote

Bachelor of Technology in Mechanical Engineering

Jaipur National University

Aug 2014 – Oct 2018

Jaipur, India

ACCOMPLISHMENTS

- Secured an A+ grade in the National Talent Hunt Examination during higher secondary education.
- Achieved All India Rank (AIR) 651 in IPTSE during engineering studies.
