Portfolio

Profile Summary

Full-Stack Developer skilled in JavaScript, React.js, Node.js, Express.js, and MongoDB. Experienced in building scalable, user-friendly web applications with a focus on performance and seamless user experience. A fast learner and creative problem solver with a passion for writing clean, efficient code. Eager to contribute to impactful projects and collaborate with dynamic teams in fast-paced tech environments.

Work Experience

SequelString AI Pvt Ltd

MERN Stack Intern

Jul 2025 – Sep 2025

- Assisted in developing and maintaining dynamic web applications using the MERN stack (MongoDB, Express.js, React, Node.js).
- Collaborated on front-end and back-end features to deliver scalable, high-quality solutions.
- Designed responsive user interfaces, ensuring seamless performance across devices.
- Crafted and optimised RESTful APIs in Express.js to achieve full functionality and reliability.

QuadB Technologies

React JS Developer Trainee

Apr 2025 – Jun 2025

- Built responsive React.js UIs from Figma designs, managed state with Redux, and integrated REST APIs.
- Gained hands-on experience with motion libraries, JWT authentication, and React Native basics.
- Used Git for version control and collaborated effectively with team members to deliver milestones.

7 Star MedTech Pvt Ltd

Web Developer Intern

Jan 2025 – Apr 2025

- Constructed and maintained responsive websites using HTML, CSS, Bootstrap, JavaScript, WordPress, and PHP.
- Collaborated with marketing teams to design SEO-optimized, user-centric websites.
- Built schemas and APIs using MySQL and PHP, improving user engagement by 25%.
- Converted Figma designs to functional code with 99% design accuracy.

Education

upGrad

Full Stack Development (MERN)

Jaipur National University

Bachelor of Technology in Mechanical Engineering

Projects

Flixxit - OTT App:

- Developed a Netflix-like OTT platform allowing users to browse and view movies and series.
- Built the frontend using React.js, Redux, and Tailwind CSS.
- Created and implemented a backend with Express.js, MongoDB, and JWT for secure authentication.
- Links: GitHub | Live Demo
